Description

The HC LTD Trick Ski has two rear toe mounting options.

Option 1- With rear inserts.
The Pro Trick Plate (PTP) is needed with all tricks that have rear inserts.
The Invert Trick Plate (ITP) will not work with the new rear insert pattern.

Option 2- With screw retention plate (SRP)
If the trick size you order is out of stock we will contact you with an estimated ship date. Your order will not be billed until it ships.

2017 HC LTD TRICK SKI
The HC LTD trick has been designed for the most demanding trick competitors in the world. An aerospace aluminum honeycomb core is used to deliver incredible strength and unsurpassed sensitivity and feel. The HC LTD is the perfect trick ski designed for toe and hand passes, delivering a unique blend of stability and explosive energy. Lighter than the AURA trick the HC LTD is an excellent solution for those who focus on body-over and step-over tricks. The amazing light weight and powerful rebound make it a must have for the serious competitor.

ALL NEW FOR 2017
The 2017 tricks come complete with rock solid, ABS plastic anchors embedded inside the core of each ski. These anchors allow us to install the industry's highest quality machine screw inserts in all trick models. Rear plate inserts are now standard equipment on all tricks. These rear inserts are designed to work with our new Pro Trick Plate and also accommodate the Radar trick rear toe plate.
