

KD Powercarve Slalom Ski blank 2022

KD POWERCARVE SLALOM SKI The Powercarve leads the way in wide body performance for the beginner or passive intermediate level skier. The skis wide tip and tail allow for effortless starts for skiers of any size. The side cut design means the ski turns very easily and crosses the wake as well as any traditional ski. The tunnel base tapers into an edge to edge concave below the feet to provide a stable ski when ridden behind the boat, however still rolls exceptionally well from edge to edge for a ski of its size. Distinctive fin slot technology keeps the ski tracking through the turn, taking away any washout caused by the large surface area in the tail. Graphite composition gives a light feel for this great performing wide body ski.
